

The Hondo Owl Band, in Region competition last Saturday, received a I Division rating in Concert playing and in Sight-Reading. They became the first Owl band to rate the co-

veted Sweepstakes Award since 1960.

A band must rate a I Division in the categories mentioned above, as well as in marching band competition. This rating was earned by the band last

fall when the marching competition was held.

The band proudly represented this community in an outstanding way. Through their director, J. O. Robertson, they express thanks for the concern and

backing of the board of trustees, the school administration, and the patrons of Hondo High School. Names of the players appear elsewhere in this issue.

HONDO WAS AMONG TEN TEXAS CITIES to receive a distinguished achievement award in the 1967 National Clean Up Contest. The Hondo Garden Club members worked hard for this honor, won for the third consecutive year, with the help of the city and many of the youth organizations who gave freely of their time and energies.

Perhaps a city cannot be expected to keep in company dress the year round but our visitors might wonder just now where all our cleanliness went. The beginning of spring finds us with many yards untended; lots adjoining places of business are knee-high in a tangle of weeds, papers and debris. Corner fire plugs are struggling to keep their tops above plumes of Johnson grass; utility poles are surrounded by weeds, even now scattering seeds to make sure of more weeds.

A drive around town shows promise for there are well-tended lawns and gardens in some areas. A kaleidoscope of color borders a few driveways and walks where the owners have thoughtfully planted ahead to this day. The Lady Banksia roses are at their golden loveliest; a house on 20th Street has a temporary new roof of wisteria blooms. Hedges of iris, with yellow predominating, are brightening some of the most unlikely places. Blue bonnets bob in the breeze. On 30th Street a yard full of poppies greets the passer-by.

On the west side are huddles of tiny dwelling places with a minimum of the conveniences most of us consider essential to our comfort and happiness. Everywhere one sees scattered patches of bright-colored flowers, perhaps trying to compensate the dwellers for creature comforts they do not have and might never know... Beauty is in the eyes of the beholder.

WELL, WHAT DO Y'ALL KNOW? The oldie about grits being corn that lost its social standing ain't necessarily so. A U.S. manufacturer of breakfast foods has hired the top chef from a top restaurant in Paris to make a tour of nine U.S. cities to demonstrate "the gourmandise of hominy grits". Shucks, grits don't need any such (whatever gourmandise is). Slathered in butter, with salt to taste, or even in dood-dress with cheese if you prefer, who could ask for anything but a second helping?

Heaven only knows what the unsuspecting are in for after the chef makes his tour but among the so-called delicacies he aims to perpetrate are "souffle du colonel" and "grits fondues migonnes".

There'll be mutiny among those dedicated to our Southern bounty!

LESS TARRYING IN MARRYING might be the result of continued reports of the increasingly higher costs of exchanging I do's.

Brides gowns, wedding cake and reception costs, marrying charges paid to the knot-tying minister (none were quoted direct), the price of wedding silver, and honeymoon expenses seem to be on the up and up and up.

If you can catch all the individuals involved directly in a wedding at just the right sentimental moment, most will probably agree that it's worth it, whatever the cost.

THE NATION'S TOP EMPLOYERS are reportedly ganging up against hiring bearded, long-haired applicants. This is according to a West coast observer. Reason given is that the employers prefer clean-shaven men and say others conjure up the hippie image. Some psychologists argue that there might be a lot of creative talent behind the beards but the paycheck departments take a dim view of splitting hairs to discover it.

AS IF YOU DIDN'T KNOW BUT IN CASE YOU MIGHT FORGET: Saturday, April 6, is election day right here in Hondo. ... Hondo voters will decide the fate of the proposed 1% city sales and use tax and choose three city councilmen.

More elections are ahead this month here and within the county. On your vote will rest the final decisions. VOTE!

G. E. (Pete) Pedroza
**Pete Pedroza
In Council Race**

G. E. (Pete) Pedroza who is filling the unexpired term of former City Councilman Albert Rowlett, makes the following statements:

I was born in Medina County and formerly lived in the Castroville area and received my elementary education there. In 1940, I married Alicia Arcos of Hondo and we moved here in 1941. We have reared our family here, all have attended Hondo Schools and all except the youngest, still in high school, have attended college.

I served in the U.S. Navy as Petty Officer 3/c during World War II, electrical department, aboard the USS Guam. After the War, I completed courses in bookkeeping, salesmanship, and in the repair, maintenance and sales of office machines including manual and electric typewriters, cash registers and adding machines. I am presently employed as manager of the office machines division of the Hondo Anvil Herald.

I feel honored to have been appointed to serve on our local city council, even for the short term. I now seek re-election and, if elected, I pledge to serve this city to the best of my knowledge and ability. Every vote will be sincerely appreciated.

LIBRARY WEEK COMING SOON

April 21-27 will be National Library Week. It will be observed in Hondo with special daily features, during the week and an open house and silver tea on Monday April 22.

More details next week.

Connally for President

In 1962, The Anvil Herald was proud to be among the earliest newspapers to endorse the candidacy of John B. Connally for Governor of Texas.

He has served us well, and now he is being asked to serve as a "favorite son" candidate for President, since President Johnson has decided not to run.

We endorse Governor Connally wholeheartedly, and believe he would make a fine president, not just a "favorite son".

He is certainly better qualified, and has better judgment than any of those who have been dividing the country with their campaigning thus far.

FARM BUREAU VIEWS CITY SALES - USE TAX

The state legislature during the 1967 session approved a statute which permits Texas cities to adopt local (city) sales taxes levied on the same basis as that used by the state. The law provides for a local election and, if approved, the city sales tax is collected by the state comptroller along with the collection of the state sales tax. Only those living within a city are eligible to vote but all sales are taxed. A farmer or rancher living out of the city limits of a city having the sales tax will be required to pay the tax but denied the right to vote.

As of March 1, 1968 a total of 219 city sales tax elections had been held with the voters approving the tax in 189 instances and rejecting in 30. Nearly all of the major cities that have held elections have approved the sales tax, and it is estimated that something in the neighborhood of 63% of the total population of Texas is or will soon be paying a 3% sales tax made up of a 2% state tax and 1% city tax. In 14 cities the local tax became effective on January 1, 1968. It will go into effect on April 1 in 146 cities and in the last 29 additional cities on July 1.

It is interesting to note that Dallas expects to collect \$8 million from the 1% tax which

is 13.5% of what it collects from property taxes. Houston expects to collect \$12,500,000 which is 18.7% of its property tax collections. San Antonio expects to collect \$5 million which is 21.3% of its property tax collections.

STATE SHARE
Two percent of all the money collected by the state for the cities will remain in the state treasury. This means that if Dallas is successful in collecting the \$8 million the state will retain \$160,000 to pay for the collection of the tax. If San Antonio is successful in collecting the \$5 million, it will pay to the state \$100,000. If Houston is successful in collecting its \$12,500,000 it will pay to the state \$250,000.

The Constitution of the State of Texas specifically exempts the taxation of farm products in the hands of the producer and family supplies for home and farm use are exempt from all taxation. This provision of the Constitution may be set aside by a two-thirds vote of all elected legislators in both houses (Sec. 19, Art. 8). There are other sections of the Constitution that raise serious doubt which regard to the constitutionality of this type of taxation.

Vote Your Choice, But Vote

April is election month in many parts of Texas, including Medina County.

Coming Saturday, April 6, Hondo voters will choose three councilmen and city residents will determine the fate of the proposed city sales and use tax.

A heavy vote is anticipated because there are five candidates for the council posts and rumors of a write-in.

Write-in candidates are nothing new. If local voters are as indifferent to their responsibility at the polls as they have frequently been in local elections, anything could and might happen. Remember, in the 1967 election, only 73 votes were cast.

This is not to endorse any one

candidate over the other but to urge every eligible voter to go to the polls and cast an intelligent, carefully considered vote for the man of his choice.

An effective city government is necessary for the welfare of Hondo. Your vote is necessary to see that Hondo maintains that standard.

Also up for the decision of city residents is the matter of the one percent city sales and use tax.

We have published opinions reflecting both sides. A majority of the Texas cities which put the matter to vote have approved it. What Hondo does about it is up to Hondo voters.

Remember to vote, Saturday, April 6.

Letters TO THE EDITOR

April 1, 1968

Editor, Hondo Anvil Herald,
As a long-time resident of Hondo, I need some questions answered before I vote for a city sales tax.

First of all, with the revenue coming in monthly in rental of the airport properties, the city golf course, and the city utilities, I think a financial statement showing a disbursement of these moneys should be issued, indicating the need for additional taxation.

Next, if preparation for a retirement plan for city employees has not already been set up from funds in hand, why tax local purchasers to pay for their retirement, at this time?

Another point, if neighboring cities and towns have adopted the city sales tax, why not let Hondo be the place to which shoppers will come, knowing they can avoid additional taxes, thus drawing traffic, visitors and business to our town?

If the city sales tax would reduce citizens' tax burdens in any way, I will gladly vote for it; but at present I can see no purpose in levying additional taxes.

(Name withheld by request)

March 31, 1968

Hondo Anvil Herald
Dear Mrs. McDade,
A last minute plea for the passage of the one cent Sales Tax, to be voted on this Saturday, April 6.

I have been told that some voters believe the Council is trying to keep the Tax vote and what we plan to use the money for, a Secret. This of course is not true because I think the more people know why we need this tax the better chance it has to pass. As most people know, the City Council cannot spend City funds to advertise any kind of legislation. Therefore, I would like to thank Ralph Jones for his letter to the paper in favor of the tax.

First, the City Council has held our city property tax at the same level for many years. The same is true of electric, water and sewer fees, with a very minor raise in garbage collection fees.

These are the sources of revenue for the City. Increased usage of electric power has made it possible to absorb the past few increases of rates from the City Public Service of San Antonio where Hondo purchases its electric power.

All material costs are up for each department. All wages are up at all departments. The growth of Hondo makes each department need more equipment and more manpower. This adds up to a need for more revenue to maintain the progress and growth that we now have in motion.

With the revenue received from the proposed 1% sales tax, the Council will try to stay with or above minimum wage laws.

The Council would like to initiate a retirement plan for all city employees. The Council hopes for better street drainage, which in some areas will require storm sewers and they are extremely expensive.

The Council hopes to improve existing streets and pave more streets. Then, there is always the need for new equipment to replace the old that does wear out.

There is also a need for buildings to house at least the most expensive equipment and for better storage sheds. Again, this equipment costs more today than it did just two years ago.

The above reasons are just a few why the City of Hondo needs more revenue. It must have more revenue in order to maintain progress.

I sincerely hope the citizens of Hondo will go to the polls Saturday and vote for three councilmen of their choice, and vote FOR the City Sales Tax.

Respectfully,
A. D. Patterson

Appetite For The Future

The following is part of an editorial by Paul C. Johnson as it appeared in The Prairie Farmer:

Young farmers need education, and what may be even more important, an appetite for the future, an eagerness to learn. With a good store of agriculture and management skills, you won't be out of a job. You will be needed for whatever comes along.

If you think farming is more uncertain than other kinds of work, forget it.

It is being said that at least 50 per cent of the young people today will have to retool for a different

vocation or profession in their lifetime. So why should this scare the young farmer?

The land, its care and proper use, represents a great resource no matter what changes may come along.

The best security may lie in quality — better conventional farm products, imaginative use of land for many purposes, better community arrangements, a higher quality of rural life.

He who has developed something good is not likely to be left out of things. He will be the first to be asked to bring order and use out of any new inventions.

Sheriff's Column

By Medina County Sheriff C. J. Hitzfelder

Medina County Sheriff Charles J. Hitzfelder sponsored a police training school in the Hondo City Council chambers during the week of the 25th of March. The Federal Bureau of Investigation furnished the instructors. The school pertained to the change in procedures of law enforcement due to decisions of the United States Supreme Court.

Of most importance to the officers, was the Miranda case decision which changed arrest, search and seizure of evidence procedures.

Hitzfelder, an advocate of police training and a graduate of the FBI National Academy in Washington, D.C., said that this was the most informative school that has been held in the area since the changes were made. Officers from Frio, Uvalde and Kerr Counties as well as all Medina County officers attended.

BURGLARIES

Four burglaries occurred in Hondo, Texas, this past week. One was at the Strait Equipment Co. Others were at Dr. R. W. Landers' office and the Jax Distributing Co. and Dawson's Picture Framing Co. All are being investigated by the Sheriff's office. All four burglaries repeated the same method of operation, with the offices ransacked, evidently for money, and office machines stolen.

DEPUTY WOUNDED

Deputy Sheriff Jesse Arcos, a member of the Medina County Sheriff's office, is in the Medina Memorial Hospital, a victim of an accidental gun shot wound in his right hand. Arcos, who was in the sheriff's office, picked up a pistol from a desk drawer. The pistol discharged and hit Arcos in the palm of his right hand. His condition is satisfactory.

SOIL CONSERVATION

The Technical Action Panel (TAP) is composed of representatives of agencies of the Department of Agriculture whose programs benefit rural people. In Medina County, Chairman of TAP is E. L. Abbott, Soil Conservation Service.

Members include Floyd Smith, ASCS; Glenn Bragg, Medina County agent; John McAnelly, vocational agricultural instructor; and Ealy B. Dorbandt, Farmers Home Administration.

The TAP panel assists rural people and rural communities

to identify the services they need for economic, social and cultural growth and to locate and secure the needed services. They also assist individuals and groups with economic development plans, community development projects, inventories and surveys.

If there are individuals or groups in Medina County wishing information on any such projects, they are urged to contact any member of the TAP panel, or meet with them on the second Tuesday each month in the SCS office at 10 a.m.

LOCAL BUSINESS

LOCAL ADS FOR TRADE AREA

The trade area of a newspaper is something unique.

The newspaper's trade area is the creature of many things, but only the local newspaper touches it totally.

The trade area is not bound by county lines, or even state lines. It may be a limited section within a great city. But whether it encompasses counties or a dozen city blocks, the trade area is established by the circulation of the local newspaper.

The expanse and cohesion of the trade area are controlled by the contents of the area newspaper. Because of news stories, the problems of a distant rancher become problems of the retailer in the business center. Because of personal items in the newspaper, people from every strata share experiences of joy and sorrow.

Because of editorials and articles dealing with common problems, isolated individuals become involved citizens.

Because of the advertising of retail and service enterprises, the families of the area begin to feel that personal friends will welcome them in the trade center.

The trade area is never a static thing. It changes as the lives of the people change. It changes with industry, farm-

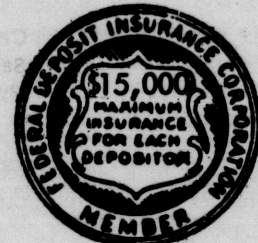

ing, transportation, and migration. It may contract or expand. It may prosper or wither.

When communication within a trade area breaks down, the trade area tends to lose its identity and vitality. When communication is free and full in strong retail advertising in a vigorous hometown newspaper, the trade area is likely to grow in unity and size.

AMONG HEMISFAIR EXHIBITS, HUMBLE

BY KATHY BRIEDEN
(For The ANVIL HERALD)

You may have to make an effort to find the Humble Pavilion at HemisFair since it is housed in an old limestone building, once known as the Schultz Store, located just inside the Goliad Street entrance. But do make the effort.

The displays depicting the story of transportation on the ground floor are worth it, and the 12-minute film shown from 9:00 a.m. to 10:00 p.m. daily makes the pavilion a must.

The exhibit uses toys and models from museums and collections throughout the Americas. It was assembled by the clever and witty Dr. William A. Burns of the Witte Museum.

Dr. Burns was present at the preview showing I attended and added interest to certain displays by giving me some information on how they became a part of the collection. Of particular appeal were the three wood carvings of Gene Zeuch of Mason, Texas characterizing figures of the old west. Mr. Zeuch is a Texas rancher who carved for a pastime before his work came to the attention of Dr. Burns. Now he does sell some of his hilarious and intricate scenes with some of the characters bearing a resemblance to "Cow Poke" in the cartoon strip.

The film "My Name is Paul" shown in the theater which accommodates 125 persons, projects on five screens a unique panoramic story of the common ways of life in the Americas as stated in the theme: I am born; I learn; I love; I create; I build; I achieve; I travel.

The photography is particularly impressive and uses a technique similar to that of the U.S. Pavilion at Expo '67, starting with one screen and expanding to three, then five, the action scenes which make it possible to see a football kicked from the far screen on the right to the extreme screen on the left and be batted back as a baseball, are indeed unique.

Upstairs the old home has been transformed to an elegant 19th century parlour, complete with period furniture and accessories. The color scheme of green and orange is tastefully carried out in the wallpaper, drapes, and upholstery and offers a pleasant retreat from the busy and crowded fair grounds which surround the pavilion.

Camp Fire Song Contest

We want some new songs for Camp Fire Girls. We want some new songs written by our C.F. Girls. So, here's a Camp Fire Girls Song Contest:

1. Words and music must be original.
2. Each entry must have on it the name of the girl, her age, program classification, address, name of council.
3. Five copies of each song must be sent, one for each of the judges.
4. Adult leaders will submit the songs to the contest judges.
5. Deadline: Monday, April 15.

Selected songs will be sent to all councils in May so the girls may learn them before Camp Fire Girls Day (July 1) at the HemisFair. At the closing ceremony there, recognition will be given the young composers. All this excitement will take place at the Women's Pavilion of HemisFair.

Letter To The Editor

April 2, 1968

Editor
Anvil Herald:

I have a few words to say concerning the forthcoming election on the city sales tax.

Also several questions have arisen in my mind as to the just need for this tax. Why do we need it and who can assure us that property taxes will not be increased in the near future, just because the city sales tax has been levied?

FINANCIAL STATEMENTS

Why are we, as tax payers, not given a financial statement of the status of our city treasury? We used to have this statement once a year and to my knowledge, there has not been such a statement printed in our local paper for several years. Why should we individual citizens be taxed to help pay for the retirement fund for city employees? I pay self-employment tax for my retirement and I pay Social Security tax on my employees to set up a retirement fund for them, and now I am being asked to pay a sales tax so the city can set up a retirement fund for its employees. Where is the justice? We are taxed, taxed and taxed again on every side and the prospects are that we will be paying more and more taxes every year.

If this tax would really reduce our tax burdens in any way whatsoever, I would go along with it, but the city just hasn't convinced me of that yet.

I think one point for keeping Hondo free of city tax is that it will draw lots of trade from the neighboring towns, including San Antonio and I say "Why not give Hondo the advantage of having this traffic and trade from the adjoining territory that will surely bring visitors and business to our town?"

I am against the city sales tax and will vote against it will all strength I have.

Sincerely yours,
A Tax Payer
Mrs. E. G. Pope

WHO IS MY NEIGHBOR?

Editor's note: The following paragraphs were submitted for publication. The writer's name is withheld by request.

After hearing a talk Monday night at the Hondo High School auditorium on the brutalities of Communism, I felt compelled to re-examine my Christian values in the light of certain statements made by the guest lecturer.

One such statement, to the effect that "all communists are savages" brought forth from me a shudder of fear. The message of Christ is love, not hate (Luke 6:27).

Although the evils of Communism are more than apparent, I as a Christian must respond to the evil, not with hate, but with constructive love. And so I am forced to ask myself WHO IS MY NEIGHBOR? Does this even include COMMUNISTS?

Taking the lecturer's advice, I consulted my Bible and came up with this modern application:

"But he, desiring to justify himself, said to Jesus, 'And who is my neighbor?' Jesus replied, 'A man was going down from Jerusalem (Hondo) to Jericho (San Antonio), and he

fell among robbers, who stripped him and beat him, and departed, leaving him half-dead. Now by chance a priest was going down that road (Hwy. 90); and when he saw him he passed by on the other side. So likewise a Levite (lawyer), when he came to the place and saw him, passed by on the other side. But a Samaritan (Communist), as he journeyed, came to where he was; and when he saw him, he had compassion, and went to him and bound up his wounds, pouring on oil and wine (water from a canteen); then he set him on

his own beast (put him in the car) and brought him to an inn (Castroville Hospital), and took care of him. And the next day he took out two denarii (2 Five's) and gave them to the innkeeper (hospital administrator), saying, 'Take care of him; and whatever more you spend, I will repay you when I come back (from San Antonio).' Which of these three, do you think, proved neighbor to the man who fell among the robbers (on Hwy. 90)? He said, 'The one who showed mercy on him.' And Jesus said to him, 'Go and do likewise.' Luke 10:29-38

SOME COMMENTS ON WATER

By Bradley Bailey

The Medina County hearing on the suggested changes in the EUWD Law will be held at the Courthouse in Hondo April 9 at 10 a.m.

I would like to emphasize that these Legislative changes are not, at this time, endorsed by the EUWD board of directors. They have been suggested by our lawyer, and these hearings are being held to see how the citizens of the District feel before the Board takes any action on this matter.

The testimony presented at the five-county hearings will be considered very carefully before any action is taken.

All water users, all land owners, and all tax-supported units of government in the Dis-

trict should be very interested in these legislative changes. Any thing which affects the right of a landowner to produce underground water may very well affect land values, and thereby affect tax values.

We need certain powers to enable us to "conserve, protect and recharge" our underground reservoir. The big question is: Just how much, and what kind of authority do we have to have to do this?

The testimony presented at these five hearings will help to decide this question.

I hope every interested person will attend one of the hearings and express his, or her, own opinions.

FHA NEWS

The D'Hanis FHA Chapter held a regular meeting on the second Tuesday of this month. Riva Koch presided.

We discussed ways to celebrate National FHA Week. We will start off by attending services as a group at Holy Cross Church, D'Hanis. Then we will visit the Church of Christ, Hondo.

During the school week various activities will be going on. The seniors, juniors, sophomores and freshmen will decide the activities for Monday, Tuesday, Wednesday and Thursday, respectively. Everyone is responsible for Friday. We have plans for a panel discussion and an assembly in which Miss FHA will be chosen. There are four candidates for this title, one from each class.

We will also sponsor a style show on Thursday night, April 4, at 7:30. The public is invited.

We will be busy with all this until our next meeting when we will discuss more fully leisure-time for the summer. By the end of the year we will be looking for an open date for our FHA picnic at Garner Park which we think will be well-deserving.

Camp Fire News

Medina County Camp Fire Council members, board members, Blue Birds and Camp Fire Girls are busy planning their annual Carnival and beef barbecue to be held the first Saturday after Easter, April 20.

Each girl can earn honor beads by helping to plan the booth her group will sponsor and working in it the night of the carnival. The girls put forth a lot of effort, as do their adult friends, to provide an evening of fun and good food for everyone.

A song fest was enjoyed at the regular meeting of all groups this week. Suggestions on things the girls can do to earn additional honor beads were given to show the wide scope of the Camp Fire program. All groups in Hondo were in attendance with their guardians and leaders.

Mrs. Jimmy Rogers of Organization and Mrs. Joe Embrey of Training conducted the meeting. They plan another one for later in the year.

TO THE VOTERS OF MEDINA COUNTY

We, the Commissioners Court of Medina County have been petitioned for and are calling for an election on April 13th for the issuing of \$1,400,000.00 dollars in bonds of which 75 percent will be used for right of way on a divided Hi-Way through Medina County and various farm to market roads. Said Hi-Way 90 with the exception of the cities of Hondo, Castroville, D'Hanis & Dunlay.

The balance of 25 percent to be used for re-topping approximately 50 miles of pavement, construction of new roads. Also for right of way for future Farm to Market roads in Precinct four in areas of Devine, Natalia & Biry area.

We realize the opinion of people in regard to higher taxes. Also the fact that it might be better if the Federal Government or the State paid for all of the Right of Way construction and Maintenance but under the present and future regulations as far as we know only the State would help with said right of way. Their help would amount to about one-half of the cost.

It is known that the increase of traffic on High Way 90 has made it a hazard and that it will become increasingly more so with just normal increase of traffic; plus the completion of Amistad Dam, HemisFair, Etc. By not making a major improvement on Hi-Way 90 we are jeopardizing the lives of six to seven thousand daily. One of these lives could be yours - your parents, child, grandchild or your best friend.

The overall road program will take up to 10 years to complete and will ultimately result in a 30c increase in the tax rate based on present assessed valuations. To begin the program, it is contemplated that a maximum increase of 10c will be necessary next year.

THE TOTAL PROGRAM WILL COST THE HOME-OWNER

Your Actual Property Value, \$1,000.00; County Tax Per Year, \$0.57; Increase Per Month, \$0.05; 5,000.00; \$2.85; 24: 10,000.00; \$5.70; 48: 15,000.00; 8.55; 72: 20,000.00; 11.40; 95.

These figures represent a thirty cent tax rate.

So we ask you to give this matter its due consideration, and when the time comes Vote and vote the way you feel is to your best interest and the future of entire Medina County.

By Commissioners Court Medina County, Texas (2tc13)

Downy Mildew Sorghum Threat

Downy mildew of grain sorghum is a disease that has caused considerable damage in some areas during the past two or three growing seasons. This disease can overwinter in the soil, and then infect systematically the small sorghum seedlings as they come out of the ground. For this reason, sorghum fields where downy mildew was present should be rotated with crops not related to sorghum (cotton, vegetables, etc.) in order to minimize further damages due to this disease.

The sweet sorghum or sorghos, as a group, are relatively resistant to downy mildew; the sorghum-sudan forage hybrids, again as a group, are relatively susceptible to downy mildew. There may be exceptions within each group.

AN OPEN LETTER TO ALL HONDOANS

This Saturday, April 6, the citizens of Hondo will be asked to vote "yes" or "no" to the proposed 1% city sales and use tax.

The advantages of the city sales tax to Hondo are numerous—the most important one being a source of revenue estimated at \$50,000 per year for the city. This additional money is to be placed in the general fund which is used to pay city expenses.

Considering all the alternatives to the sales tax to raise additional funds, the 1% tax proposed by the Hondo City Council is the fairest way to raise the needed revenue to finance the rising costs of city government.

The sales tax places the burden not exclusively on the property owners but on every citizen of Hondo. In this way, everyone is doing his small part in helping to shoulder the responsibilities and expenses of city government.

As president of your Chamber of Commerce, I urge you to vote "yes" in Saturday's election to insure an efficient and up-to-date city government.

Sincerely,
Albert L. Vance

"We hope to have an exceptionally attractive show," said Mrs. Crow, "and members are most enthusiastic."

Many attended the March 22 special activity program when Mrs. Charles Foltz, an authoritative instructor and master judge of Cotulla, conducted a workshop program on Practicing Arrangements for the Flower Show.

NOTICE OF SPECIAL ELECTION

TO THE DULY QUALIFIED RESIDENT ELECTORS OF THE CITY OF HONDO, TEXAS, AND TO ALL OTHER INTERESTED PERSONS:

NOTICE IS HEREBY GIVEN that an election will be held in and throughout the City of Hondo, Texas, on the 6th day of April, 1968, on the question of the adoption of a One Percent (1 percent) Local Sales and Use Tax within said City, in keeping with the following ordinance adopted by the City Council of said City, as follows, to-wit:

NO. 207

AN ORDINANCE ORDERING A SPECIAL ELECTION TO BE HELD IN THE CITY OF HONDO, TEXAS, ON THE QUESTION OF THE ADOPTION OF A ONE PERCENT (1 PERCENT) LOCAL SALES AND USE TAX WITHIN THE CITY; DESIGNATING THE DAY OF THE ELECTION AND THE POLLING PLACE; APPOINTING ELECTION OFFICIALS THEREFOR; PROVIDING THAT ALL DULY QUALIFIED RESIDENT ELECTORS SHALL BE QUALIFIED TO VOTE; PRESCRIBING FORM OF BALLOT; PROVIDING FOR NOTICE OF ELECTION; AND CONTAINING OTHER PROVISIONS RELATING TO SAID ELECTION.

WHEREAS, Article 1066c, Vernon's Texas Civil Statutes (Acts 1967, 60th Legislature, Regular Session, Chapter 36, Page 62) authorizes the governing body of any city, town or village in Texas to call an election for the purpose of adopting a local sales and use tax within such city, town or village; Now Therefore, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HONDO, TEXAS:

Section 1. That a special election shall be held in and throughout the City of Hondo, Texas, on the 6th day of April, 1968, at which election there shall be submitted to the resident qualified voters of said City, for their action thereupon, the following propositions:

"FOR adoption of a one percent (1) local sales and use tax within the city."

"AGAINST adoption of a one percent (1) local sales and use tax within the city."

Section 2. That said election shall be held at one polling place for all qualified voters of said City, and the polling place and presiding officers for said election shall be, to-wit:

Polling Place: Hondo Volunteer Fire Station, Hondo, Texas.

Presiding Officers: Edgar Stiegler, Presiding Judge; Charles Larkin, Alternate Presiding Judge.

The Presiding Judge at such election shall appoint 2 clerks.

Section 3. That said election shall be held in accordance with the Constitution and laws of the State of Texas, and all duly qualified resident electors of the City of Hondo, Texas, shall be qualified to vote.

Section 4. That the ballots of said election shall conform to the requirements of Section 2, Subsection G, of Article 1066c, Vernon's Texas Civil Statutes (Acts 1967, 60th Legislature, Regular Session, Chapter 36, Page 62), and to the requirements of Chapter 6 of the Election Code of the State of Texas, as amended, and the language to be printed thereon shall include the following:

OFFICIAL BALLOT

INSTRUCTIONS: Place an "X" in the square beside the statement indicating the way you wish to vote.

FOR adoption of a one percent (1 percent) local sales and use tax within the city.
AGAINST adoption of a one percent (1 percent) local sales and use tax within the city.

Section 5. That election judges and clerks are directed to comply with Article 6.06, Election Code of the State of Texas, as amended (Section 2 of House Bill 181, Acts 1967, 60th Legislature, Regular Session, Chapter 452, Pages 1026, 1028) which provides that a square shall be placed beside each proposition in which the voter is instructed to place an "X" or other clear mark to indicate the way he wishes to vote; but which also provides that failure of a voter to mark his ballot in strict conformity with the directions on the ballot shall not invalidate the ballot, and the ballot shall be counted if the intention of the voter is clearly ascertainable, except where the law expressly prohibits the counting of the ballot. It is specifically provided that the election officers shall not refuse to count a ballot because of the voter's having marked his ballot by scratching out the statement or proposition for which he does not wish to vote.

Section 6. That notice of the election hereby ordered and called shall be given: (a) by publication on the same day of four successive weeks in a newspaper of general circulation published within said City of Hondo, the date of the first publication to be at least twenty-one (21) days prior to the date set herein for such election; and (b) by posting of such notice at the polling place of the City of Hondo, Texas, not less than twenty (20) days prior to the date set herein for such election. It is hereby found and determined that the Hondo Anvil Herald is a newspaper published within the City of Hondo, Texas, and is a newspaper of general circulation within said City.
